PHYS352 – Short Project II: Low Temperature Techniques Lent Term 2010/11 Report

THIS SHEET MUST BE ATTACHED TO YOUR FINAL REPORT – please insert your name at the top of this page. Do not submit your work in folders or plastic sleeves.

Your log books and two hard copies of your report should be placed in the appropriate IN-BOX in the Physics Foyer no later than **5pm on Monday 21st March 2011** (week 20, the last week of Lent term). Work handed in after the above time and before 5pm on the following Monday will be subject to a 10% point reduction of mark (e.g. work scoring 65% will be recorded as 55%). Work handed in later than this will not count towards your continuous assessment. **Electronic copies must also be submitted via LUVLE by 5pm on Monday 21st March 2011.**

Failure to submit substantial pieces of coursework without due cause can result in an uncondoned fail mark which will prevent the award of an overall honors degree.

I declare that this submission is my own work. I have not submitted it in substantially the same form towards the award of a degree or other qualification. It has not been written or composed by any other person and all sources have been appropriately referenced or acknowledged.
